

Rossella Anania

e-mail: ananiar@tcd.ie

ORCID: [0009-0004-8091-5055](https://orcid.org/0009-0004-8091-5055)

GitHub: github.com/Rossella4712

Professional Experience

Postdoctoral Research Fellow

11/2025 - Present

School of Physics, Trinity College Dublin, Ireland

Advisor: Prof. Luca Matrà

Education

Ph.D. in Physics, Astrophysics and Applied Physics

10/2022 - 10/2025

(final exam: 15/12/2025)

Department of Physics, Università degli Studi di Milano, Italy

Supervisor: Prof. Giovanni Rosotti, Co-supervisor: Dr. Andrew Winter

Thesis title: Assessing the role of external photoevaporation of protoplanetary discs in nearby star-forming regions

M.Sc. Degree in Physics

09/2020 - 09/2022

Department of Physics, Università degli Studi di Milano, Italy

Supervisor: Prof. Giuseppe Lodato, Co-supervisor: Prof. Stefano Facchini, Prof. Daniel Price

Thesis title: Numerical modelling of the magnetically driven precession in accretion discs

B.Sc. Degree in Physics

09/2016 - 06/2020

Department of Physics, Università degli Studi di Milano, Italy

Supervisor: Prof. Giuseppe Lodato, Co-supervisor: Dr. Benedetta Veronesi, Dr. Chiara Scardoni

Thesis title: Evolution of gas and dust in the protoplanetary disc around AS209

Awards:

- 05/2026 : Honourable Mention for the Best Ph.D. Thesis of the Year Awarded the Premio Pietro Tacchini, conferred by the Italian Astronomical Society (sait.it)
- 06/2016 : Scholarship Amici dei Licei di Viale dei Tigli, awarding High School students showing high degrees in scientific topics, supporting an academic career

Teaching

- 10/2024 - 09/2025: Teaching Assistant in the *Fisica I* course of Prof. Giovanni Rosotti, Università degli Studi di Milano, Italy
- 03/2023 - 07/2023: Teaching Assistant in the *Fisica I* course of Prof. Giuseppe Lodato, Università degli Studi di Milano, Italy

Mentoring

- **Veronika Bilik** (Present). Undergraduate student at Trinity College Dublin.
- **Jingyi Ping** (2025-2026). M.Sc. student at KU Leuven, Belgium, now Ph.D. candidate at Exeter University.

Main supervisor: Prof. Paola Pinilla. Thesis title: Survival of Protoplanetary Disks under External Photoevaporation. The results led to the publication *Ping, Anania, Pinilla, Vioque, 2026, A&A*.

Observing and computational time awarded:

PI - ALMA 12-m array, ID: 2024.1.00828.S, Cycle 11 (2024-2025)

Co-I - ALMA (8 proposals): 2026.1.00236.S Cycle 13, 2026.1.00460.S Cycle 13, 2026.1.00423.S Cycle 13, 2026.1.00567.S Cycle 13, 2025.1.00660.S Cycle 12, 2025.1.00246.S Cycle 12, 2025.1.00645.S Cycle 12, 2023.1.01591.S, Cycle 10

Co-I - JWST (1 proposal): GO10058, Cycle 5 (2025-2026)

Co-I - X-Shooter (2 proposals): 117.29M0, 113.26NN aka 0113.C-0351

PI - Awarded HPC time - Facility: INDACO/CINECA, Università degli Studi di Milano, Core hours allocated: 2000

Codes and scripts:

Diskpop : Protoplanetary disc population synthesis code of which I am co-developer. I implemented the routine to simulate the process of external photoevaporation in disc evolution. Used in Somigliana, A. et al. (2024), Anania, R. et al. (2026).

Dustpy external photoevaporation routine : Routine to include the effect of external photoevaporation of protoplanetary discs in the disc evolution code Dustpy. Used in Anania, R. et al. (2025), Delussu, L., Anania, R. et al. (2026), Ping, J., Anania, R. et al. (2026)

Orion FUV : Code that adopts the statistical approach presented in Anania, R. et al. (2025) to compute the FUV flux at the position of stars in the Orion complex. Presented in Anania, R. et al. (2026).

Scientific Community Work & Outreach

- Reviewer for Monthly Notices of the Royal Astronomical Society (MNRAS). (2026)
- Volunteer Member of the Astronomical Society G.V. Schiaparelli, Varese, Italy. (2019 - Present)
- Volunteering for the Transition Year Physics Experience (TYPE), Trinity College Dublin, Ireland. (03/2026)
- LOC of the *Milan Christmas meeting*, Università degli Studi di Milano, Italy. (12/2024 & 12/2025)

Conferences and seminars

2026

- Discs on the Exe, Exeter, UK, contributed talk
- Debris Disc Connections Workshop, Cambridge, UK, contributed talk
- MIAPbP, Planet Formation across various Environments and Epochs, Munich, Germany, invited attendee
- UCL-MSSL Planet Formation group meeting, London, UK, invited seminar
- PLATO Theory Meeting, London, UK, contributed talk

2025

- Milan Xmas Meeting, Milan, Italy, contributed talk
- ECOGAL seminar, Bologna, Italy, online invited seminar
- EAS conference meeting, Cork, Ireland, contributed talk
- Origins of Solar Systems, Gordon Research Conference, Massachusetts, US, contributed poster
- Italian National Conference of Star and Planet Formation, contributed talk

2024

- Milan Xmas Meeting, Milan, Italy, contributed talk
- Externally Irradiated Discs Workshop, Paris, France, contributed talk
- Star and Planet Formation Seminar, MPIA, Heidelberg, Germany, invited seminar
- Externally Irradiated Discs, London, UK, contributed talk - Institute of Astronomy seminar, Cambridge, UK, invited seminar
- New Heights in Planet Formation-Dustbusters, ESO, Garching, Munich, Germany, contributed talk
- EAS conference meeting, Padova, Italy, contributed talk and contributed poster
- Star and Planet Formation meeting, OCA, Nice, France, invited seminar

2023

- External photoevaporation workshop, ESO, Garching, Munich, Germany, contributed talk
- Milan Xmas workshop, Milan, Italy, contributed talk
- Core2disk-III, Paris, France, invited talk
- Star@Lyon, Lyon, France, contributed poster
- Protostars and Planets VII, Kyoto, Japan, contributed poster
- Star and Planet Formation seminar, MPIA, Heidelberg, Germany, invited seminar
- STRADE-YODA meeting, Naples, Italy, contributed talk
